Question - Why should we hire you?

Answer - You should hire me because I have the skills and experience needed for this role. I am proficient in MERN stack development and have worked on projects like e-commerce platforms and learning management systems. I am a quick learner, a team player, and always eager to take on new challenges. I am confident that my technical expertise and problem solving skills will help contribute to the success of your team.

Question - What is your ideal work environment?

Answer - My ideal work environment is one that promotes collaboration, learning, and innovation. I enjoy working in a team where ideas are shared openly, and there is a culture of continuous growth. I also value a structured yet flexible environment that allows me to focus on coding, problem-solving, and improving my skills while contributing to meaningful projects.
